

This sensor is a motion switch, turn on the light on detection of people movement, and turn off after a pre-selected holdtime when there is no people around. A daylight sensor is also built-in to switch off the light when there is sufficient natural light.

Function and options

On-off Function

With sufficient natural light, the light does not switch on when presence detected

With insufficient natural light, the sensor switches on the light automatically when person enters the room

After the hold time, then switch off automatically when no movement is detected.

3-steps dimming control

with Tridonic switchDIM ballast / driver (Excel ballast/driver, corridor function), this sensor can also achieve 3-steps dimming control...
