

3 metre Aluminium Pole  
Model: T300-BL

RRP: \$268.20

DIMENSIONS	FEATURES	SPECIFICATIONS
76mm diameter 3040mm Length 1.5mm wall thickness	Black paint finish Supplied with decorative cross arm Important Mounting Pole in Ground: Hole depth 0.5 metres. Place 100mm of gravel in bottom of hole and ensure the bottom part is imbedded into it for drainage. Prop up the pole to level, if decorative cross arm supplied is going to be used check the orientation of the holes at top of pole. Pour Concrete around base to just below the cable entry hole, this allows about 100mm of earth over the concrete and will keep cable accessible yet concealed. (see Diagram)	Colour: Black
