

3 metre Aluminium Pole

Model: T300-BL

DIMENSIONS

76mm diameter
3040mm Length
1.5mm wall thickness

FEATURES

Black paint finish
Important Mounting Pole in Ground:
Hole depth 0.6 metres. Place 100mm of gravel in bottom of hole and ensure the bottom part is imbedded into it for drainage. Prop up the pole to stand up vertically. Pour Concrete around base to just below the cable entry hole, this allows about 100mm of earth over the concrete and will keep cable accessible yet concealed. (see Diagram)

SPECIFICATIONS

Indoor / Outdoor: Indoor, Outdoor
Colour: Black
